

dacadoo provides a health & wellness technology platform which is used by medium to large companies, as well as Health & Life Insurance companies to engage their employees/members in a healthy lifestyle. The platform calculates a real-time Health Score for each user based on 3 key areas: Lifestyle (exercise, nutrition, sleep), Body (biometric measures), and Feelings (stress and mental well-being), and also motivates users through automated coaching, gamification and social collaboration. The company develops its own Health Risk Quantification technology, which powers its Health Score and its Risk Engine. The award-winning company is working with strategic partners from key industry segments to bring this solution to the global digital life and health insurance market.
